

The Ramsey Free Public Library Presents

Celebrate NJ Maker's Day!

The Art of Coding

Saturday, March 25th & Sunday, March 26th

1:00-2:30pm

Get a taste of how the original artists at Pixar and Nintendo created their work and begin to understand what goes on “under the hood” of your computer when you use digital imaging programs. Working with a free program language called “Processing,” students will create an interactive art piece. Participants will leave with a piece of art they have coded. **Bring a flashdrive to both classes. Limit 9 students.**

CG Muse instructor, Conor MacFinn, has a BFA from FIT in computer animation & interactive media.

Register online: <http://www.ramseylibrary.org/teen.htm>

Students must register for both classes!!

Grades 6-12
